

# Open and Flexible Visitation

CHKD supports open and flexible visitation for our patients and encourages the involvement of family members and friends in the patient's care.

CHKD will ensure that visitors enjoy full and equal visitation privileges, consistent with patient preferences and reasonable clinical/operational limitations. Accordingly, CHKD will not restrict visitation privileges on the basis of race, color, national origin, religion, gender identity, sexual orientation or disability.

Patients (or their legal decision-makers, as may be the case) may receive visitors of their choosing and may also refuse to see visitors or withdraw consent to see visitors of their choosing at any time.
