

Children's Hospital of The King's Daughters is committed to caring for all patients, birth to age 21, without regard to their financial situation.

Certain patients may qualify for Charity Care – meaning no expected patient payment.

Patients may qualify if they do not have the financial resources to pay for healthcare services and are not eligible or enrolled in a government program or health plan.

An application for financial assistance is available on request.

Applicants will be asked to supply documented proof of need, including pay stubs, income tax records, family size and proof of residence.

If you believe your financial situation may prevent you from paying your hospital bill, please ask for an application for Charity Care in the admitting office or at the registration desk. Or you may call:

(757) 668-7174 (for last names A through L)

(757) 668-7202 (for last names M through Z)
