

## Physician Input Prompts Action

Last year, to provide increased opportunities for participation and to further discuss responses contained in the physician survey, CHKD hosted Town Hall Forums throughout the Hampton Roads area. Together, pediatric primary care providers, subspecialists, surgeons and Arno Zaritsky, MD, senior vice president of clinical services, collaborated to determine initial key priorities:

- Improve communication between referring physicians and CHKD's medical and surgical subspecialists
- Create more efficient processes to request and schedule referrals
- Enhance Power Chart capabilities for community physicians

To learn more about the actions taken thus far, and to participate in prioritizing and planning next steps, please join the Physician Relations team and Dr. Zaritsky at one of our upcoming Town Hall Forums:
