

Spare a little time and share a little of yourself with a child.

The opportunities are endless to put your willing hands, smile, talents, office skills or just your good intentions to work at Children's Hospital of The King's Daughters.

Play cards with a child who can't get out of bed.

Assist customers in a gift shop.

Gain valuable office experience.

Give a child a ride in a wagon.

Keep families informed in a waiting area.

Greet visitors.

There are great rewards for individuals who come to Children's Hospital with a desire to help. If you would like to share a little of your spare time with us, we can provide you a rewarding experience.

Volunteers at Children's Hospital help us by applying the tender touch, extra smile and willing pair of hands that make the difference in the care for which we are so well known.

Our volunteer program is flexible enough to accommodate almost any schedule. All you need to do is spare a little time and share a little of yourself. The opportunities to work and play with children at Children's Hospital of The King's Daughters are endless.

The opportunities are numerous at Children's Hospital of The King's Daughters. We offer a variety of volunteer experiences based on your personal interests, including:

Kids & Co. Gift Shop: Put your people skills to work in our gift shop while you interact with families and staff within the hospital.

Work directly with the kids: As a child life volunteer, you might find yourself playing with the children in an activity room or reading a story with a child who is unable to leave his room.

Assist in a waiting room: Our surgical waiting area volunteers work directly with families while they are awaiting news about their child's surgery.

Support our staff: Gain valuable work experience or share your existing clerical skills with one of the many departments within the hospital. Or interact with the families and patients on a clinical unit while assisting the nursing staff.

Also, if you have special talents, please let us know. We are always interested in developing new services.

Adult Volunteer Program

To ensure a positive experience for both the volunteer and the hospital, we request the following of all volunteers:

- Personal interview.
- Commitment to a regular weekly schedule.
- Attend volunteer orientation.
- General good health.
- Documentation of (2) MMR immunizations, varicella (chicken pox) screening and an annual negative TB skin test.
- Background investigation.
- Purchase and wear CHKD volunteer uniform.
- Sign and adhere to the strict confidentiality code.
- Follow hospital policies.

Junior Volunteer Summer Program

To become a Junior Volunteer for our summer program, you must be 14 years of age (by January 1) and apply between March and May for the upcoming sessions.
