
Patient and Family Rights and Responsibilities

Children's Hospital
of The King's Daughters

We promise to our patients and families that we will live out clinical and service excellence in the following ways. We will:

Engage with you by

- Telling you who we are, what we do, why we are in your room, and what we think will help you.
- Providing you with a friendly, respectful, and medically safe environment that protects your personal privacy.
- Respecting your cultural and spiritual traditions, as well as your personal values.
- Welcoming any visitors you designate, when it is medically safe, without regard to gender, race, color, national origin, religion, sexual orientation, gender identity, or disability.
 - In most areas, parents, legal guardians, spouses, and domestic partners can be with you all the time. We will do our best to provide one of them a sleeping space in the room.
 - You may write the names of up to 6 total family members and friends on the authorized visitor list. Anyone whose name is not on the visitor list will not be allowed to visit. Other than parents/legal guardians and designated support persons, visitors may visit between 8 a.m. and 8 p.m.
 - Patients who, prior to admission to CHKD, had a documented physical, sensory, mental or emotional impairment that substantially limits one or more activities of daily living may also identify one or more designated support person(s) who will provide support and assistance necessary due to the specifics of the patient's disability during a patient's inpatient admission, admission for observation, or admission for ambulatory surgery. Designated support persons are not included in the total visitor count.
 - You can refuse visitors at any time.
 - We may restrict, or limit visitors due to infection risks or during procedures, emergencies or because of limited space and safety.

Explain to you by

- Being truthful with you in all of our communications.
- Speaking to you about your care in ways you can understand.

Collaborate with you by

- Including you (and your family, when appropriate) in all aspects of your care.
- Providing you with quality medical care regardless of gender, race, color, national origin, religion, sexual orientation, gender identity, disability, or source of payment for care.
- Providing you with qualified sign language or spoken language interpreters if needed, at no cost to you. We will also make information available in other formats, if you request it (for example, large print, audio, electronic formats).

- Notifying your primary physician and a family member or someone you name when you are admitted.
- Providing disability access to our buildings.

Empathize with you by

- Reminding you that it is okay to be afraid, sad, angry, or lonely, and that it is okay to cry.
- Providing you with a secure setting free from abuse, neglect, or harassment and providing access to protective services.
- Only using restraints and only limiting communication when we need to for the sake of patient care and safety, as allowed by law.

Listen to you by

- Letting you talk freely with any of us.
- Helping you make a decision about going elsewhere for care if that is a safe option.
- Not repeating what you say to us unless it's important to your care or safety.
- Keeping discussion about your care as well as your medical records private.
