April 4, 2019  
**Autism: A Sometimes Hidden/Unseen Disability in Our Workplace**  
Thomas Cholis, MD, Assistant Professor of Pediatrics, EVMS/CHKD  
John Harrington, MD, Professor of Pediatrics, EVMS/CHKD  
Kristen Donahoe, BSN, RN, CCM, Mother  

Objectives: Explain to frontline staff and care providers the prevalence and variability of autism spectrum disorders. Assess parental perspectives of navigating the healthcare and school environments with children on the autism spectrum. Construct accommodation ideas that different areas of our healthcare system at CHKD can use to better address families with children on the autism spectrum.  

**Competencies:**  
Medical Education; Patient Care

April 11, 2019  
**21st Annual Pediatric Emergency Medicine Update**  
**24th Annual Forrest White Visiting Lecturer**  
**The Opioid Epidemic: How Did It Happen and What Can We Do About It?**  
Holly Perry, MD  
Department of Emergency Medicine  
University of Massachusetts  

Objectives: Describe contributing factors and relate scope of the opioid epidemic. Determine appropriate treatment options for patients with substance use disorder.  

**Competencies:**  
Medical Education; Patient Care
