

ePrescribing 10.6

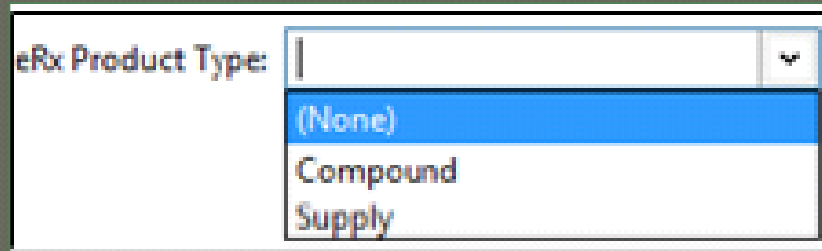

Information Services Training Team
Children's Hospital of the King's Daughters
July 2013

What's new with ePrescribe ?

- ◉ **New Orders Detail Fields**
- ◉ **Pharmacy Search Enhancements**
 - Pharmacies expanded search options
 - Prescription Summary screen of prescribed medication
 - Order Status “Prescribed”
 - Renewal Request messages

New Orders Detail Fields

- Notes to pharmacy – provides a way to communicate to the pharmacist information related to the prescription but is not part of the prescription.
- This information does not print on the prescription label.
- eRx Product Type – you must choose a type for all free text orders.

The image shows a screenshot of a software interface. On the left, the text "eRx Product Type:" is followed by a dropdown menu. The dropdown menu is open, showing three options: "(None)", "Compound", and "Supply". The "(None)" option is currently selected and highlighted in blue.

eRx Product Type:		▼
	(None)	
	Compound	
	Supply	

New Orders Detail Fields continued

The status of “Prescribed” now shows on the Orders Profile for prescriptions.

<input checked="" type="checkbox"/>		morphine	Ordered	1.6 mg, Syringe, IV Push, Once, STAT, Stop: 07/09/13 14:00

By completing the two-factor authentication protocol at this time, you are legally signing the prescription(s) and authorizing the transmission of the above information to the pharmacy for dispensing. The two-factor authentication protocol may only be completed by the practitioner whose name and DEA registration number appear above.

Sign Cancel

You will receive an alert if “SIG” is over SCRIPT standard limit

Renewal Request Messages

- Renewal request messages may return what was originally prescribed and what was dispensed
 - The message provides clarity when pharmacy may have dispensed something different than what was prescribed
 - E.g. generic switch
